

## DIANELLA

**BLUE STREAM™** is a prunina cultivar. It is an attractive grass with clumps of broad, light blue foliage. Royal blue berries follow flowers in Spring providing a spectacular display. A low maintenance variety ideal for borders and landscape projects.

Full sun or part shade.  
H 70cm W 50cm

**CHERRY RED (b)** is a tasmanica cultivar that features cherry red stems and deep green broad leaves. It boasts blue & yellow flowers in spring followed by attractive purple berries in summer. Suited to clay loam or humus-rich sand with moderate watering.

Full sun or part shade.  
H 75cm W 75cm

**COOLVISTA™** is a revoluta cultivar. It is a low maintenance plant with robust plumes of blue-green foliage. In mid to late Spring, royal blue coloured berries are displayed just above the foliage.

Full sun or part shade.  
H 45cm W 40cm

Coolvista is comparable to Dianella Little Rev.

**FLORERO (b)** is a smaller revoluta cultivar with neat compact foliage that has an upright, vase shape habit. Dainty lilac flowers followed by purple berries are produced during spring and summer. Low water requirements once established. Great for narrow borders and low mass plantings in garden beds and roadsides. Suited to well drained soils and sandy clay loam.

Full sun or part shade.  
H 30cm W 20cm

**GODDESS (b)** is a caerulea hybrid that has upright multi-stemmed bright emerald green, broad foliage. Dainty blue flowers & berries are on display in Spring through Summer. Moderate watering required.

Full sun to part shade.  
H 70cm-120cm W 40-60cm

## DIANELLA

**KENTLYN** (b) is a revoluta cultivar bred for it's upright habit and slim, mid-green leaves. Small blue flowers appear in Spring followed by berries in Summer. It is tough and quick growing. Useful for water-wise, low maintenance garden beds. Kentlyn is coastal and drought tolerant. Plant in well drained soil.  
Full sun to part shade. H 80cm W 80cm

**RAINBOW TWIST™** is a prunina cultivar bred for it's strappy variegated white, blue and touches of pink foliage at different times of the year. Ideal for adding colour and form contrast in mixed beds and smaller mass plantings. Position in well drained soil and surround with mulch. Tolerant of dry periods once established and light frost.  
Full sun or part shade. H 50cm W 50cm

**REVOLUTA** is an original form of Dianella with dark green strap like leaves. Good spreading, hardy variety that is well suited to covering larger areas. Best planted in well drained, compost enriched soil. Drought and frost resistant. It can also be grown in large pots.  
Full sun or part shade. H 100cm W 150 to 200cm

**SILVER STREAK** Attractive contrast plant that has broad grey-green foliage with white stripes. Silver Streak is perfect for brightening up dull spots in the garden. It has a neat clumping habit and delicate blue flowers produced on fine stems above the foliage in Summer. Not suitable for coastal conditions.  
Full sun to part shade. H 60cm W 60cm  
**Silver Streak is similar to Dianella Destiny and Wyeena.**

**STREETSCAPE™** Another drought tolerant variety of Dianella. It looks great mass planted in garden beds and under trees. Streetscape is a wider spreading variety so is well suited to covering larger areas. It can also be grown in large pots.  
Full sun or part shade. H 50cm W 60cm  
**Streetscape is similar to Dianella Little Jess.**

**UTOPIA®** (b) is a prunina cultivar that has stunning blue and purple broad leaved foliage that sporadically twists creating a unique effect. Utopia tolerates frost and drought once established. Great contrast plant for borders and garden beds. Requires well drained soils. Avoid poor soils.  
Full sun or part shade. H 50cm W 50cm
