ANIGOZANTHOS

Bush Blitz ⌘ 70cm H

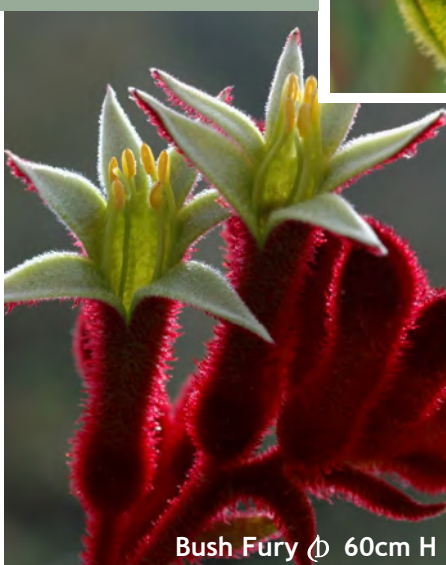

The Bush Gem range of kangaroo paws offers spectacular colour, profuse flowers, a range of heights and exceptional quality. Flowers are produced in abundance throughout the warmer months of the year and are near irresistible to nectar feeding birds. These kangaroo paws also come with the added bonus of being drought hardy once established and requiring only minimal maintenance.

Amber Velvet (b) 1.2m H

Ruby Velvet (b) 1m H

Gold Velvet (b) 1.2m H

The Velvet range are a unique range of kangaroo paws boasting improved black spot resistance. They are drought tolerant once established, requiring only minimal maintenance. The flowers are bird attracting and provide a spectacular display from spring through autumn.

Landscape Gold (b) 1.6m H

Landscape Tangerine (b) 1.6m H

Landscape Scarlet (b) 2m H

These Landscapers varieties have been developed for both commercial and domestic use. They are generally taller varieties. They were bred to be tough, disease tolerant plants with large flower size, bright flower colours and strong stems.
