

# GERALDTON WAX

Jambinu Zest

**Jambinu Zest**  
An early flowering variety with large dark pink flowers and red centres.

**Purple Pride**  
A fast growing favourite that looks magnificent when in flower.  
Flowers July to Sept.

Purple Pride

One of the most iconic flowers of Western Australia is the *Chamelaucium* or Waxflower.

Whether they be flowering, used for screens, feature plants or cut flowers... their uses are endless!

Late Winter & Spring is the time for waxes to perform, flower and show everybody just how beautiful and different they all are.

With just a light prune and dose of fertiliser after flowering, anyone can grow them successfully.

*Chamelaucium* are very hardy and provided the soil is well drained and plants are positioned in full sun, once established should require minimal maintenance and watering.

Chantilly Lace

**Chantilly Lace**  
Gorgeous white frill flowers with a lime green centre.  
Flowers from late winter.

Local Hero<sup>®</sup>

**Local Hero<sup>®</sup>**  
A later flowering variety with pink flowers and red centres from spring. Forms a small mounded shrub to 80cm.

# GERALDTON WAX

**Dancing Queen ⓘ**
