CHERRY RIPE

Dense compact shrub with masses of waxy cherry and white flowers in Winter and Spring. Can be clipped into a low hedge. Tolerant of frost and coastal conditions. Plant in full sun to part shade in well drained soil. Low watering requirements once established.

H 50-80cm W 50-80cm

AMBER BLAZE

Dense spreading shrub with fine bronzy new growth. The dense habit helps suppress weeds. Large orange, bird attracting flowers are displayed for most of the year. Can be pruned if required. Plant in full sun to part shade. Water regularly to establish.

H 1m W 2.5m

CRIMSON VILLEA™ (b)

Hardy dense shrub that produces crimson, bird attracting flowers from Autumn to early Spring. Low maintenance. Frost hardy. Position in full sun to light shade in well drained soil. Low water requirements once established.

H 80cm W 80cm

GREVILLEAS

DOROTHY GORDON (b)

Large shrub with grey-green fern-like leaves and bronze new leaf tips. Unusual mauve pink, bird attracting flowers appear through most of the year. Plant in full sun to light shade in well drained soil. Water well in dry periods.
H 3m W 2m

LITTLE ROBYN

Medium spreading shrub with large red flowers for most of the year. Can be used as a screen. Position in full sun to part shade. Plant in well drained clay loam or sandy soil. Low water requirements. Water during extended dry periods.
H 1.5m W 1m

MINI MARVEL

Hardy groundcover with fine, mid green foliage. Bears masses of dainty red flowers for most of the year. Prefers a sunny position in well drained sandy soil. Tolerant of light frost, coastal conditions and poor soils. Low water requirements once established.
H 30-50cm W to 1.2m

Mt TAMBORITHA

Prostrate, evergreen spreading plant which produces a mass display of reddish-pink and cream spider-like flowers in Spring. Ideal groundcover and rockery plant. Position in full sun or part shade in well drained moist soil. Prefers some summer watering.
H 40cm W 1-2m

PINKY PETITE

Small spreading shrub with grey-green leaves. Produces a beautiful display of soft pink flowers from early Autumn to late Spring. Frost tolerant. Position in full sun in well drained soil. Low water requirements once established.
H 30cm W 1m

PEACHES & CREAM (b)

Medium bushy shrub with attractive bright green foliage. Cream flowers turn peach as they mature. Flowers throughout the year. Plant in a sunny position in well drained soil. Frost tolerant. Low water requirements when established.
H 1.2m W 1.5m
