*Tulbaghia Silver Lace*

**Dianella revoluta Little Rev™ DR5000 Ⓜ**

Compact, blue-grey foliage on a very hardy plant that requires little maintenance. Useful for both residential and commercial projects. Drought and frost tolerant once established.

Dianella Breeze™ DCNCO Ⓜ

*Dianella caerulea Breeze™ DCNCO* Ⓜ

A tidy variety with no messy above ground canes. This fast establishing variety is ideal for verges, erosion control, filling in gaps and outcompeting weeds.

**Dianella tasmanica Wyeena® TAS300 Ⓜ**

A robust, hardy variety with clean variegated foliage providing excellent colour contrast. Well suited to both residential and commercial projects. Frost and drought tolerant.

Dianella Cassa Blue® DBB03 Ⓜ

**Dianella Cassa Blue® DBB03 Ⓜ**

A caerulea cultivar with rich blue compact foliage. It is one of the longest flowering Dianellas available. Performs well in containers.

Dianella Wyeena™ TAS300 Ⓜ

# GRASSES

**Lomandra longifolia Tanika™ LM300'**  
An improved, compact form of longifolia with soft foliage. Ideal for slopes, roadsides and commercial plantings. Wind and drought tolerant but avoid wet feet.

**Lomandra longifolia Nyalla™ LM400 Ⓜ**  
A semi-compact fine variety with fine foliage. Great for erosion control, windy sites and coastal conditions.  
Tolerates both full sun to part shade positions.

Lomandra Tanika™ LM300

Lomandra Nyalla™ LM400 Ⓜ

**Lomandra hybrid 'Lime Tuff'**  
A strappy, compact variety with lush, lime green foliage. A low maintenance plant well suited to mass planting, and ideal as an understorey contrast plant.

Lomandra Lime Tuff

**Dianella revoluta Revelation™ DRG04 Ⓜ**  
A standout performer that survives both wet and dry conditions. This variety produces more flowers and has cleaner foliage than the original. Great for mass plantings on verges and in median strips. A hardy grower helpful used with erosion control.

Dianella Revelation™ DRG04 Ⓜ
