Myoporum parv. Yareena™ 'PARV01' (b)

Alternanthera Little Ruby™ 'LRU30' (b)

A compact, spreading ground cover ideal for containers and borders. This hardy variety thrives in full sun and part shade with the beautiful vibrant, burgundy foliage perfect for adding contrast and interest to an area.

Acacia saligna prostrate

Long, slender green foliage is well complemented by clusters of golden flowers in spring. Its dense coverage make it great for suppressing weeds.

Adenanthos Coral Carpet (b)

Beautiful texture and foliage colour with pink/red new growth. Small flowers in winter and spring attract birds. A great groundcover for spilling over embankments and rockeries.

Myoporum parv. 'Yareena'™ 'PARV01' (b)
 An easy care ground-cover with dense, green foliage. Small white flowers cover the foliage in Spring to Summer.

Excellent for out competing weeds and as a lawn substitute in low traffic areas.

Low water requirements once established.

Adenanthos Flat Out (b)

Acacia saligna prostrate

GROUND COVERS

Viola hederacea

Scaevola Bondi Blue

Viola hederacea

A pretty groundcover for shaded areas. Can be used as a lawn substitute in low traffic areas. It performs well under trees and looks great planted amongst paths and near ponds. Excellent weed suppressor.

Scaevola Bondi Blue

A strong grower with a ground hugging habit and purple/blue fan flowers during the warmer months. Requires minimal watering once established.

***Westringia Mundi*™ 'WES05' (b)**

A tough ground cover with a mass of white flowers. Perfect for roadside verges and plant and forget areas.

***Brachyscome Pacific Reef* (b)**

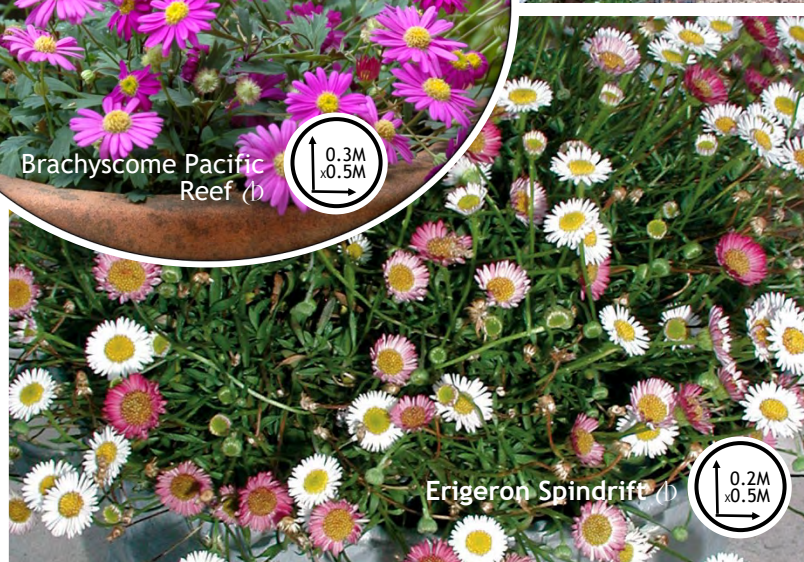

Vibrant purple/pink flowers are the striking feature of this *Brachyscome*. It has a compact, suckering growth habit. Great for planting along pathways as a border plant and in containers.

Brachyscome Pacific Reef (b)

Westringia Mundi™ 'WES05' (b)

Erigeron Spindrift (b)

***Erigeron Spindrift* (b)**

A neat, dome shaped plant with a beautiful display of white/pink/red daisy flowers from Spring to Autumn. Plant in a sunny position in well drained soil. Frost tolerant with low water requirements when established.
