Viburnum Dense Fence™ 'VOC1' (P)

Nandina Magical Lemon Lime (P)

The go to plant for ultimate contrast. New lemon growth fades to lime green with age. Minimal maintenance required. Forms a natural low hedge to 1m.

Viburnum Quick Fence™ 'V0Q1' (P)

A quick growing shrub with large glossy green leaves, and a dense habit. Quick Fence (P) has an upright growth with clusters of white flowers in late spring.

Viburnum Coppertop (P)

Viburnum Quick Fence™ 'V0Q1' (P)

Viburnum Coppertop (P)

A new variety of Viburnum with copper red new growth. Responds well to regular trimming for bushiness as well as adding interest with the coloured new growth. Great for mid-sized hedges and screens.

Callistemon Macarthur™ 'LC01' (P)

A compact variety with tidy new growth. A cross between the popular Little John & Captain Cook varieties. It has red brush flowers in spring. Prune as required.

Callistemon Macarthur™ 'LC01' (P)

HEDGING

Syzygium Backyard Bliss (b)

A popular narrow growing Lilly Pilly perfect for hedging. It is fast growing to a maximum height of 3-4m. Its glossy, bronze new growth and mature foliage is psyllid resistant so the foliage stays clean and healthy year round. A perfect option for around pools courtyards and along fence lines.

Rosemary Tuscan Blue

A garden favourite for years. Tuscan Blue has strongly aromatic, needle-like leaves that can be used in cooking. Perfect for growing as a hedge as it responds well to regular pruning. Once established Tuscan Blue is extremely hardy requiring only minimal water through extended periods of dryness.

Pittosporum Screen Between (b)

Screen Between has silver-grey foliage that contrasts beautifully against the darker stems. It has a naturally branching shape and compared with other varieties requires little pruning.

Westringia Blue Gem™ 'WES03' (b)

A hardy shrub with a bushy growth habit that responds well to pruning. Prune to desired shape or stick to the traditional hedge. In Spring a mass display of vivid bluish-purple flowers cover the plant. Ideal as a great feature plant and for mass plantings.
