

# LAVENDER

Lilac Lace (P)

LAVINNOVA® Lavender Lace varieties are bred for their lengthy flowering season which begins in early winter and continues right through into the spring months. These compact shrubs boast both aromatic flowers and foliage. They make wonderful container plants and add gorgeous colour to cut flower arrangements. Height and width to 70cm

# LAVENDER

Roseberry Ruffles Ⓐ

LAVINNOVA® Lavender Ruffles are *Lav. pedunculata*. An Australian bred, non-weedy variety. They have distinctive ruffled bracts that appear above the flowers from late winter into spring. Both flowers and foliage are beautifully fragrant. These beauties are perfect for containers, small gardens and as a low hedge.

Height to 60cm, Width to 80cm
